Software Engineer experienced in designing and managing cloud ecosystems for enterprise-grade platforms

Work Experience

J P Morgan Chase Co.

Jan 2020 – Jan 2024

Software Engineer

- Built a CI tool using cloud-native buildpacks, cutting application build times by 70% and simplifying image-building
- Enabled firm-wide adoption of the tool by integrating with Jenkins, reducing manual build failures by 40%
- Streamlined the runtime ecosystem for 100+ cloud clusters with automation scripts, reducing incident resolution time by 60%
- Developed monitoring tools in Python-Django and SpringBoot-Maven, reducing downtime by 40% through real-time alerts
- Optimized Kubernetes deployments by leveraging advanced concepts like pod scheduling and controller design
- **Skills:** Java, Python, Jenkins, Kubernetes, Docker, Shell Scripting, Terraform, Ansible, Prometheus, Grafana

NetAnalytiks Co.

June - Sept 2019, June - Aug 2018

Software Intern

- Led the design and documentation for code signing modules using AWS CloudHSM and Azure Secure Key Vault HSM
- Developed proof of concept programs for code signing using different platform utilities
- **Skills:** AWS, Powershell, Bash, Python, Public Key Infrastructure

Projects

Text-to-Sign Language

Aug 2024 – Dec 2024

- Implemented a 3D sign language avatar generator based on given text input, based on the [Neural Sign Actors](#) paper
- Defined the architecture and developed expression encoders based on SMPL-X joints
- **Skills:** Python, Pytorch, OpenCV

Machine Learning Projects

Aug 2024 – Dec 2024

- **PyTorch CNNs:** Designed convolutional neural networks (CNNs) using PyTorch for image classification tasks. The models were trained on UB's HPC clusters using Slurm jobs.
- **Reinforcement Learning with Gym:** Developed a reinforcement learning agent using OpenAI Gym, successfully optimizing actions in a simulated environment.
- **Skills:** Python, Slurm, CNNs, ML, RL

Education

- **The State University of New York, Buffalo**

Jan 2024 – June 2025

M.S in Computer Science and Engineering

- **Ramaiah Institute of Technology, Bengaluru**

Aug 2016 – Aug 2020

B.E. in Information Science and Engineering

Presentations and Certifications

- Presented about cloud native buildpacks at [PlatformCon 2023](#)

June 2023

- Certified Kubernetes Administrator, issued by The Linux Foundation

May 2021 – May 2024

- Certified Kubernetes Application Developer, issued by The Linux Foundation

May 2021 – May 2024
